Different Finishings

Both honed and polished finishes have their own unique aesthetic appeal and can be used in various design applications. Customers can choose based on their preference for a matte and natural look with honed and unfilled cream travertine, or a shiny and more refined look with polished and filled cream travertine.

Honed / Unfilled

Polished / Filled

Noce Travertine

Noce Travertine is an elegant stone featuring a rich color palette that ranges from medium to deep chocolate hues. Its earthy tones blend seamlessly with natural colors and complement shades such as beige, making it a versatile choice for various design aesthetics.

Different finishings

Honed unfilled and polished filled Noce Travertine are two finishes for this natural stone. Honed unfilled provides a smooth matte look, showcasing the stone's natural color and texture. Filled polished has a glossy finish with voids filled in, enhancing the stone's color and depth. Noce Travertine is versatile and rustic, adding warmth and elegance to any space.
